

Informational Bulletin Regarding Medi-Cal Revalidation Requirement

In accordance with the directives of the Patient Protection and Affordable Care Act (ACA), the Department of Health Care Services (DHCS) has established a revalidation requirement to implement *Code of Federal Regulations* (CFR), Title 42, Section 455.414. Pursuant to CFR 455.414, “the state Medicaid agency must revalidate the enrollment of all providers regardless of provider type at least every 5 years.”

DHCS will send out notices to each provider to begin the revalidation process. Providers **must** wait to submit the revalidation until asked by DHCS to do so. After receiving a revalidation request from DHCS, providers should follow all applicable instructions to revalidate enrollment.
