**Subject: Void of Claims Billed for CPT-4 Code 90696**

Dear Provider:

Xerox State Healthcare, LLC (Xerox) has identified a system error resulting in the erroneous payment of claims billed for CPT-4 code 90696 (diphtheria, tetanus toxoids, acellular pertussis vaccine and poliovirus vaccine, inactivated [DTAP-IPV], when administered to children 4 through 6 years of age, for intramuscular use) to Child Health and Disability Prevention (CHDP) program providers. Providers may bill for these services using service code 83.

No action is required on your part. Xerox will void erroneously paid claims processed from December 1, 2008, through September 24, 2012. These claims will appear as voids on *Remittance Advice Details* (RAD) beginning January 6, 2014, with RAD code **0826: Claim void due to related claim(s) previously reimbursed.**

The recoveries are authorized under the provisions of *Welfare and Institutions Code* (W&I Code), Sections 14176 and 14177, and *California Code of Regulations* (CCR), Title 22, Section 51458.1(a)(1). In addition, the W&I Code sections authorize the Department of Health Care Services (DHCS) to enter into repayment agreements with providers or offset overpayments against amounts due. If the total warrant amount is not sufficient to offset the recovery, the negative balance will be converted to an accounts receivable transaction and subtracted from future Medi-Cal reimbursements.

If you disagree with any of these recoupments, you may submit a *Claims Inquiry Form* (CIF) within six months of the new RAD date. For CIF completion instructions, please refer to the *CIF Completion* and *CIF Special Billing Instructions* sections in the appropriate Part 2 manual or on the Medi-Cal website ([www.medi-cal.ca.gov](http://www.medi-cal.ca.gov)).

If you have questions regarding these adjustments, please call the Telephone Service Center (TSC) at 1-800-541-5555, option 5 followed by option 6.

Sincerely,

*Tanya E. Schuhmeier*
