FQHC/RHC Code Conversion – Policy Effective October 1, 2017

Effective for dates of service on or after October 1, 2017, the FQHC/RHC code conversion will establish HIPAA-compliant billing code sets for Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs).

The Health Insurance Portability and Accountability Act (HIPAA) was authorized by Congress in 1996. HIPAA mandates uniform, national standards for information submitted by health care providers on claims, including health care services, procedures and personal health information.
