Provider Application and Validation for Enrollment (PAVE) – Web-based Provider Application for Enrollment in the Medi-Cal Fee-for-Service Program

The Department of Health Care Services (DHCS) is instituting a web-based Medi-Cal provider enrollment system, Provider Application and Validation for Enrollment (PAVE). PAVE provides a new mode of submitting provider enrollment applications and required documentation to DHCS by means of an electronic form, the Medi-Cal Provider e-Form Application (e-Form).

Based upon the authority granted to the director of DHCS in Welfare and Institutions Code (W&I Code), Section 14043.75(b), the director hereby implements the Medi-Cal web-based provider application system and institutes the Medi-Cal Provider e-Form Application (e-Form) as a proper and legal method for completing the Medi-Cal provider application process. This regulatory bulletin is implementing and making specific the W&I Code, Sections 14043.15, 14043.25, 14043.26, 14043.27, 14043.28, 14043.29 and 14043.38, and has the full force and effect of law.

PAVE will be implemented in multiple releases to include additional provider types and enrollment actions. PAVE’s initial release will include the following provider types:

Provider types not included in the initial release may continue to submit paper applications. Eligible provider types will use PAVE to submit applications, report
changes to existing enrollments and to complete revalidation or continued enrollment for individual, group and rendering enrollment types. The initial release will also include specialized enrollments for applicable provider types, including clinic-based, facility-based and hospital-based enrollments, and enrollment as an ordering, referring prescribing-only (ORP-only) provider.
