

## Incontinence Products: Protective Underwear, Disposable

This section lists the billing codes and units for disposable protective underwear. In this section, “MAC” refers to the maximum acquisition cost and “UPN” refers to the Universal Product Number. For additional help, refer to the *Incontinence Medical Supplies: An Overview* section of this manual.

### Program Coverage

Per *Welfare and Institutions Code (W&I Code)* 14125.1, incontinence medical supplies, including protective underwear, are covered when prescribed by a physician for the treatment of beneficiaries who are incontinent.

### Code 1 Restriction

Incontinence medical supplies are reimbursable for use only in chronic pathologic conditions that cause the beneficiary’s incontinence. The primary ICD-9-CM code and the secondary ICD-9-CM code must be entered on claims to reflect the type of incontinence and the condition causing the incontinence. When incontinence is only a short-term problem and/or when there is no underlying pathologic condition causing the incontinence, providers will not be reimbursed for incontinence supplies without authorization.

### Documentation Requirements

In accordance with California Code of Regulations (CCR), Title 22, Section 51476(c), the following must be documented on the physician’s order (prescription), as documented in the beneficiary’s medical record, when billing for disposable briefs:

- Diagnosis name and ICD-9-CM code specific to the medical condition/diagnosis causing incontinence
- Diagnosis name and ICD-9-CM code specific to the type of incontinence for which the protective underwear are required
- Product name/description
- Anticipated frequency the belted undergarments require replacement
- Quantity

### Billing Requirements

Billing for disposable protective underwear is restricted to the contracted items in this section. Claims billed for disposable protective underwear must include the product’s UPN and UPN Qualifier, as published in this manual, for reimbursement unless otherwise noted. See the *Incontinence Medical Supplies Example: CMS-1500* section for additional help.

**Billing Limitations**

Contracted protective underwear quantities are limited as follows, without authorization:
