
Billing Instructions: Acceptable Claims, Attachments and ASC X12N 835 v.5010 Transactions

Page updated: August 2020

Computer Media Claims (CMC) are processed through the same claim verification programs as paper claims. CMC and paper claims must meet the same edit and audit requirements.

Claims Acceptable Through the CMC Formats

Most claims can be submitted through CMC. This includes claims submitted within the six-month billing limit or claims submitted beyond the six-month billing limit with the appropriate billing limit exception code. Denied claims resubmitted within the six-month billing limit also are acceptable for CMC submission.

Delay Reason Code

The ASC X12N 837 v.5010 format uses delay reason codes 1, 3 thru 6 and 11. Refer to the appropriate *Submission and Timeliness* section of the Part 2 provider manual for delay reason code descriptions.

Supporting Documentation – Notes

Certain Medi-Cal claims require supporting documentation that can be noted in the *Remarks* field/*Additional Claim Information* field (Box 19) of the paper claim. These claims also are acceptable for CMC submission and require using the ASC X12N 837 v.5010 *Note (NTE) Segments*.

The following list represents some of the circumstances under which claims may be submitted through CMC with appropriate substantiating statements in the ASC X12N 837 v.5010 *Note (NTE) Segments*.

- When billing with certain HCPCS or CPT-4 codes, including:
 - Unlisted Procedures, include procedure description and price in the ASC X12N 837 v.5010 *Note (NTE) Segments*.
 - Unlisted Injections, include name of drug, strength, dosage and invoice cost in the ASC X12N 837 v.5010 *Note (NTE) Segments*.
 - “By Report” Procedures, include additional clinical information or report in the ASC X12N 837 v.5010 *Note (NTE) Segments*.
 - Unusual/Complicated Procedures, include complicating or unusual circumstances in Procedures ASC X12N 837 v.5010 *Note (NTE) Segments*.

- When billing with multiple or “By Report” modifiers (for example, -99, -51, -22).
- When submitting claims using delay reason codes 1, 3 thru 6 or 11 for the ASC X12N 837 v.5010 format.
- When submitting claims requiring a Medi-Services Request obtained through the POS network or AEVS.
- When submitting claims for Medicare non-covered services.
- When billing for a newborn using the mother’s Medi-Cal identification number.
- When including an emergency statement.
- When billing for compounded prescriptions (except TPN).
- When submitting Long Term Care claims detailing Share of Cost expenditures.

Supporting Documentation – Attachments

Certain Medi-Cal claims require supporting documentation that cannot be noted in the *Remarks* field/*Additional Claim Information* field (Box 19) but must be submitted as an attachment. These claims can be submitted electronically using the ASC X12N 837 v.5010 claim file format. There are three methods for sending in attachments with a claim:

- Paper attachments can be mailed to Medi-Cal with an Attachment Control Form (ACF) cover sheet. The ACF contains an Attachment Control Number (ACN) used to link the attachment to its respective electronic claim. The ACN must be entered in the ASC X12N 837 v.5010 *Paperwork (PWK) Segments*.
- Faxed attachments can be sent to Medi-Cal with the ACF as a cover sheet and the ACN that links the attachment to its respective electronic claim. The ACN from the corresponding ACF must be entered in the ASC X12N 837 v.5010 *Paperwork (PWK) Segments*. Each fax must be sent separately and must include one ACF followed by the corresponding pages of the attachment. The fax number is 1-866-438-9377.

Electronic attachments can be sent to Medi-Cal by an approved third-party vendor who will preprocess the attachments and submit them on behalf of the provider. For electronic attachment submissions, the ACN will be supplied to the provider by the vendor and must be entered in the ASC X12N 837 v.5010 *Paperwork (PWK) Segments*. Contact information for electronic attachment vendors can be found on the Medi-Cal Provider website in the *CMC Developers, Vendors and Billing Services Directory*.

Examples of claims submitted through CMC with separate attachments include:

- Claims that require an Explanation of Medicare Benefits, Medicare Remittance Notice or Remittance Advice (Medicare status codes 1 thru 7 and 9).
- Claims that include denials from other health coverage carriers such as CHAMPUS, Kaiser, Ross Loos or prepaid health plans.
- Claims billing HCPCS or CPT-4 codes where the price is not listed with Medi-Cal.
- The submitter is unable to include the pricing information for the ASC X12N 837 v.5010 *Note (NTE) Segment*.
- Claims requiring sterilization or hysterectomy consent forms

Attachment Control Form: Required and Optional Fields

1. The Provider Number is a required field and must be clearly printed in the box provided.
2. The Provider Name is an optional field, but is recommended for purposes of timely communication with the submitter, if needed.
3. The Provider Address is an optional field, but is recommended for purposes of timely communication with the submitter, if needed.
4. The Provider Signature is a required field that must be completed by the provider.
5. Forms and attachments can be mailed to the address shown on the ACF or faxed to 1-866-438-9377. Each fax must include an ACF as the cover page followed by the corresponding attachment pages. Additional ACFs and attachments must be faxed separately.

FOR FURTHER INFORMATION REGARDING USE OF THE ATTACHMENT CONTROL FORM SEE THE PROVIDER MANUAL.

FORM NUMBER ACF-001

Attachment Control Form (ACF) Guidelines

The ACF must be an original form obtained from Medi-Cal. Copies of the ACF will not be accepted.

The DHCS Fiscal Intermediary (FI) must receive the ACF and attachments within 30 days after or before the electronic claim submission date. See example below.

The 30-day “window” is based on the day the attachment or claim is received by the FI. Medi-Cal is not responsible for any postal delays in receiving the attachments.

The following example illustrates the timeframe limitations for accepting attachments for claims.

Submitting Attachments for Electronic Claims: Time Limitations

In this example, the Provider submits four claims, which are received over a period of 61 days. All four claims require the same attachments.

Day 1: Claim A received. ACF and attachments for Claim A must be received by Day 30.

Day 2: Claim B received. ACF and attachments for Claim B must be received by Day 31.

Day 31: ACF/Attachment 1 received. Since it was received more than 30 days after Claim A, Claim A will be denied. It can be matched to Claim B, since it was received within 30 days of Claim B.

Day 60: Claim C received. Since it was received within 30 days of ACF/Attachment 1, the attachments can be matched to Claim C.

Day 61: Claim D received. Since this is more than 30 days after ACF/Attachment 1 was received, the attachments cannot be matched to Claim D, which will be denied.

Note: In the example above, Claims A, B, C and D could be different claims, or these four claims could include resubmissions of the same claim. In either case, all of the claims could use the same Attachment Control Number (ACN).

TAR Approval

Claims for services that require a *Treatment Authorization Request* (TAR) are acceptable through CMC submission. The TAR Control Number is included in the claim record as indicated in the record data specifications outlined in this manual. The provider keeps a copy of the approved TAR on file.

Claims Unacceptable Through CMC

All claims requiring special processing must be submitted on paper claim forms, including:

- Medicare/Medi-Cal crossover claims that must be separately billed to Medi-Cal.
- Claims over one year old.
- Claims for Medi-Cal recipients who have a California Children Services (CCS)-eligible condition and who are enrolled in a managed care plan that excludes treatment of CCS-eligible conditions from the plan's contract rate. These claims will be denied if submitted directly to the DHCS FI. They must be submitted to the appropriate CCS office to ensure all necessary authorizations are included. Refer to the *California Children Services (CCS)* and the *Genetically Handicapped Persons Program (GHPP)* sections in the appropriate Part 2 manual for additional information.
- Vision care claims for eye appliances requiring prior authorization.
- Children's Treatment Program (CTP)

Submission Balancing

Each submission is balanced by comparing the total number of claims and dollars submitted to the total number of claims and dollars processed.

Billing Value Field

For balancing purposes, a *Billing Value* field is used to determine the total dollars billed. The *Billing Value* field for submitter and provider control records is defined as follows.

Submitter Control Records (created): The submitter *Billing Value* is the total of the individual *Billing Value* fields on each *Provider Control Record*.

Provider Control Record (created): The *Billing Value* is the total of all *Amount* fields for that provider and claim type as defined below:

- Medical/Allied/Vision: *Net Amount Billed*
- Outpatient: *Net Amount Billed*
- Inpatient: *Net Amount Billed*
- LTC: *Net Amount Billed for Each Line*

Rejected Submissions

The entire CMC submission may be rejected if a balancing or data error is located in the *Submitter Control Record*. If the error is located in a *Provider Control Record*, claims for that particular provider will be rejected. If an error is located in a *Claim Record*, only that particular claim will be rejected.

Note: Submitters should contact the CMC Helpdesk by calling the Telephone Service Center (TSC) at 1-800-541-5555 and selecting option 4, followed by option 2, then option 1 for details on rejected submissions.

Complete File Rejection

When an entire submission containing Medi-Cal claims fails CMC edit requirements, the submitter is contacted by phone and given the errors from the *CMC Submission Error Listing* (CP-O-012), *CMC Submission Balancing Control Report* (CP-O-112) and the IBM *Websphere Transformation Extender (ITX) Translation Errors for HIPAA 5010 Listing* (CP-O-214).

Note: Production submission error information can also be accessed on the Medi-Cal Provider website at www.medi-cal.ca.gov. Test submission error information can be accessed on the Medi-Cal test website at <http://sydev.medi-cal.ca.gov>.

Submitters should contact the CMC Helpdesk by calling the Telephone Service Center (TSC) at 1-800-541-5555 and selecting option 4, followed by option 2, then option 1 for details on rejected submissions.

Partial Rejection

For CP-O-012 and CP-O-214, the submitter is contacted by phone and given the errors if the submission is partially rejected at either the *Provider Record* or *Claim Record* level. The submitter should make the appropriate corrections and resubmit the corrected claims.

Note: Production submission error report information can also be accessed on the Medi-Cal Provider website at www.medi-cal.ca.gov. Test submission error information can be accessed on the Medi-Cal test website at <https://sydev.medi-cal.ca.gov>.

Submitters should contact the CMC Helpdesk by calling the Telephone Service Center (TSC) at 1-800-541-5555 and selecting option 4, followed by option 2, then option 1 for details on rejected submissions.

Accessing ITX for HIPAA 1500 Listing CP-O-214 Report

Submitters can access the ITX for HIPAA 1500 Listing CP-O-214 report from the Medi-Cal Provider website at www.medi-cal.ca.gov. Providers should log into Transaction Services, select the CMC tab and click “CMC Error Reports.”

CMC ASC X12N 837 v5010: Inpatient/Outpatient/LTC and Medical/Vision Services

Submission Methods

ASC X12N 837 v.5010 Health Care Claim transactions may be submitted through the CMC system for providers who bill inpatient, outpatient, long term care, vision, medical, allied health and pharmacy claim types. The ASC X12N 837 v.5010 Medi-Cal specific requirements for the transaction records and some formatting is described in the *HIPAA 5010 Medi-Cal Companion Guide*. Data elements included in a submission are required for either ASC standard transactions or Medi-Cal claims processing.

For an explanation of the ASC 5010 standards and various data values, refer to the HIPAA 5010 Consolidated Guides and the Technical Reports – Type 3 (TR3) documents found on the Washington Publishing Company website (www.wpc-edi.com).

Medi-Cal’s CMC file transfer procedures and submission protocol do not change with ASC X12N 837 v.5010 submissions.

Submission Balancing

Each ASC X12N 837 v.5010 transaction is verified by the *Receiver ID* on the transaction. Claim totals must balance with the claim record received. For balancing purposes, any ASC X12N 837 v.5010 transaction that is not processed in its entirety will be rejected.

Rejected Submissions

The entire ASC X12N 837 v.5010 CMC submission will be rejected if the *Receiver ID* is not “610442” and all claims on a transaction are not processed.

Production Errors, RADS AND CIFS

Production Errors and Solutions

ASC X12N 837 v.5010 submissions are reviewed for production errors. Providers will be notified of formatting infractions by one of the following methods.

Submission Error Notification

The CMC Help Desk staff notifies the submitter by phone each time a Notification production error is encountered.

Note: Submitters can also access submission error information on the Medi-Cal Provider website at www.medi-cal.ca.gov.

Six-Month Billing Limit

Errors indicated on Report CP-O-012, CP-O-112 and CP-O-214 should be corrected and the claim(s) resubmitted within the original six-month billing limit.

Production Claim Failure: Common Causes and Solutions

The *Production Claim Failure: Common Causes and Solutions (Chart 1 and Chart 2)*, found on a following page, are a listing of common submission, production data and file errors with their solutions. Submitters may also call the CMC Help Desk for help in correcting production and submission errors.

Remittance Advice Details (RAD)

RAD statements include all provider claims submitted by telecommunications and hardcopy. CMC claims are identified by reel numbers 45 - 47 and 60 - 65 in the fifth and sixth digits of the Claim Control Number (CCN).

Supplemental Claims Payment Information (SCPI)

Electronic RAD files can be downloaded from the Medi-Cal Provider website at www.medi-cal.ca.gov through a separate contract with the DHCS FI. Contact the CMC Help Desk for further information concerning Supplemental Claims Payment Information (SCPI) or refer to the *Remittance Advice Details (RAD): Electronic* section in the Part 1 manual.

ASC X12N 835 Transaction

The ASC X12N 835 transaction known as the *Electronic Health Care Claim Payment/Advice Receiver Agreement* is available for downloading on the Medi-Cal Provider website at www.medi-cal.ca.gov. The 835 transactions are available by the Medi-Cal warrant date. Contact the CMC Help Desk for information about the 835 transaction or refer to the *Remittance Advice Details (RAD): Electronic* section in the Part 1 manual.

Claims Inquiry Form

Resubmission of claims denied for exceeding the six-month billing limit and adjustments to previously paid claims require a *Claims Inquiry Form (CIF)*. For more information regarding the CIF process, please refer to the *CIF Overview* section in the Part 1 manual.

Note: If a claim is denied for exceeding the six-month billing limit because the billing limit exception code or substantiating remarks text was missing from the original CMC submission, the claim may be corrected and resubmitted through CMC.

Claims excluded from CMC billing for one of the above reasons are denied with Remittance Advice Details (RAD) code 263 and the following message:

Resubmit claim with required attachments; Medi-Cal: attach invoice or other justification; Crossover: attach RA/EOMB/MRN.

Production Claim Failure: Common Causes and Solutions

«Claims Certifications and Solutions Table»

Claims Certification (Medi-Cal Submissions)	Solutions
<i>Total Claim Records</i> does not agree with the total of the <i>Number of Claims</i> for each provider ID.	Ensure accuracy of addition and ensure that numbers are not transposed.
<i>Submitter number and/or name and address</i> are missing.	Ensure all fields are completed.
If a photocopy of form is submitted, copy does not include both sides of document and/or original signature.	Ensure that both sides of the form are photocopied and submitted and that the copied form includes an original signature.

«Medi-Cal Data Errors and Solutions Table»

Medi-Cal Data Errors	Solutions
Claim count or billed amount on the <i>Submitter Control Record</i> , the <i>Provider Control Record(s)</i> , and/or the <i>Claim Records</i> does not balance.	All claim controls and billed amounts on a file must balance.
Line number outside valid range for claim type. This refers to Medi-Cal CMC formats (all claim types).	Valid detail line numbers for claim types are: 01 - 06 Long Term Care 01 - 15 Inpatient 01 - 14 Outpatient 01 - 08 Medical 01 - 07 Vision
Duplicate <i>Provider Control Records</i> .	There may be only one <i>Provider Control Record</i> for each provider number/claim type combination.

«Medi-Cal Data Errors and Solutions Table (continued)»

Medi-Cal Data Errors	Solutions
Submission date exceeds process date.	This error often results from the assumption that the submission date is the date the DHCS FI will process the file. Avoid this error by using the date when CMC billing files are created.
Provider not in active status.	Do not submit claims for providers who are pending approval for CMC billing. This causes provider's claims to reject. For verification of a submitter to provider status, call the CMC Help Desk before submitting a claim.

«ASC X12N 837 v.5010 Data Errors Data Errors and Solutions Table»

ASC X12N 837 v.5010 Data Errors	Solutions
<i>Receiver ID</i> not valid.	Verify file should be Medi-Cal and <i>Receiver ID</i> should be 610442. Correct the <i>Receiver ID</i> to fix.
Claim totals do not balance with claim records received.	Verify data on file for required segments, elements and subelements or required record types.
