This is a sample only. Please adapt to your billing situation.

This example illustrates a newborn metabolic screening panel billed with HCPCS code S3620 and modifier 90.

Providers should enter the mother’s Medi-Cal ID number in the Insured’s ID Number field (Box 1A).

Providers should indicate that the newborn is using the mother’s Medi-Cal ID number by entering “Newborn Infant Using Mom’s ID” in the Additional Claim Information field (Box 19). In the Outside Lab? field (Box 20), check the Yes box.

Because this claim is submitted with a diagnosis code, an ICD indicator is required between the dotted lines in the ICD Ind. area of Box 21. An indicator is required only when an ICD-10-CM/PCS code is entered on the claim.

Code S3620 is billed with modifier 90 on claim line one in the Procedures, Services, or Supplies field (Box 24D).

Enter the CLIA-certified laboratory’s NPI in the Rendering Provider ID NPI field (Box 24J, unshaded area).

Providers should enter the billing provider’s address and phone number in the Billing Provider Info and Phone Number field (Box 33) and NPI in Box 33A.

Note: The nine-digit ZIP code entered in this box must match the billing provider’s nine-digit ZIP code on file for claims to be reimbursed correctly.
