
Drugs: Contract Drugs List Part 6 – Deleted Drugs

Page updated: May 2021

Drugs listed on the following pages have been deleted from the Contract Drugs List on the date noted to the right of each drug listing. Providers will not be reimbursed for any drugs with a date of service on or after these deletion dates, unless they have an approved *Treatment Authorization Request* (TAR).

Continuing Care Exceptions

A patient who is receiving one of the deleted drugs may continue to receive it without prior authorization if the criteria for continuing care is met. Affected drugs are marked with a symbol (£). For information on continuing care, see the *Reimbursement* section in this manual. Providers can access the Provider Telecommunications Network (PTN) to determine if a patient is being dispensed a drug which is eligible for continuing care. For complete information on the PTN, see the *Provider Telecommunications Network* (PTN) in the Part 1 manual.
