

Medicare-Covered Drugs

Page updated: August 2020

Most drugs are not covered by Medicare and therefore can be billed directly to Medi-Cal without first billing Medicare. However, there are exceptions, and some drugs are covered by Medicare. If the patient is a Medicare recipient, Medi-Cal will pay for these drugs only when proper documentation is provided showing that Medicare has denied payment. The drugs in the following list must be billed to Medicare before billing Medi-Cal. This billing requirement also applies to new package sizes introduced by a manufacturer for any drug included in this list.
